MAC n' CHAO - Retail

From our Family to Yours!

We are excited to announce that we have crafted a rich and flavorful penne Mac and Chao with the perfect combination of tang, creaminess, texture and umami. We present this updated classic to you and hope you have a delicious day!

About our Chao!

A coconut based vegan cheese seasoned with a traditionally fermented soybean curd called "chou doufu" or "chao" by the Vietnamese. Field Roast continues its dedication in blending traditional Asian and European foods to create healthy plant-based innovations.

We have partnered with a traditional Greek cheese maker and a 60-year-old family business in Taiwan that makes the chao. Field Roast brings it all together in Seattle to create the first non-dairy cheese with real flavors and satisfying textures.

Chao offers authentic and delicious flavors that celebrate the brilliance of the plant-based kingdom, rather than trying to mimic dairy tastes such as cheddar or mozzarella. At Field Roast, we always believe that real is better than fake.

Two Flavors:

Creamy – Tender penne pasta covered in our Creamy Original Chao Sauce with a hint of red pepper, spices and sea salt.

Chili – Tender penne pasta covered in our Tomato Cayenne Chao sauce with Classic Meatloaf crumble, tomatoes and peppers.
